

From Nature's Medicine Cabinet

Our supplements have helped thousands of Canadians lead a happier, healthier life. Our sponsored athletes Harold Morioka have broken world records, using our natural supplements to maintain a balanced, natural lifestyle.

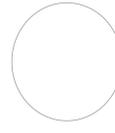

While you may not be an Olympian, you'll find that our products are just as potent in maintaining a healthy everyday life. WestCoast Naturals provide the means to leading a healthy life - from Nature's Medicine Cabinet.

Natural

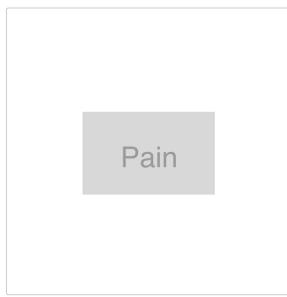

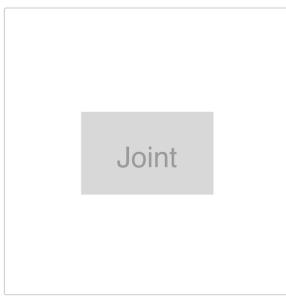

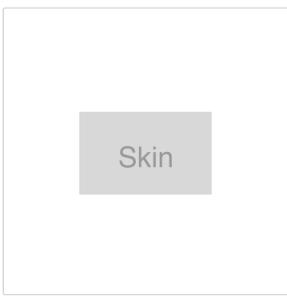

Better dosage form

Value-size

At Westcoast Naturals, we are committed to supplying high quality supplements in value-size formats and better dosage forms. From raw ingredients to finished products, Westcoast Naturals is committed to providing products straight from nature's medicine cabinet.

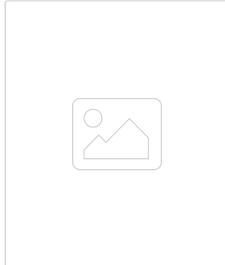

We offer 141 unique products that provide natural health alternatives to serious conditions. We currently offer over 200 NPN (Natural Product Numbers) products. The purest raw ingredients are sourced for the creation of each Westcoast Naturals product. To ensure quality and potency, Westcoast Naturals follows a strict testing process to confirm the safety and efficacy of each raw ingredient.

About Our Natural Supplements

MANUFACTURING

We submit all products through the Natural Product Number (NPN), a Health Canada licensing regulation to be required of all health products sold in Canada. The Quality Assurance and Quality Control teams are involved in every step of production. Westcoast Naturals thoroughly analyzes the potency of incoming raw materials and quality of packaging supplies. In-process inspections include verification of sample specifications and compliance of equipment operation limits. We provide every staff member with regular training to ensure they follow SOPs while operating our state-of-the-art equipment. Before each product is released to the consumer, Westcoast Naturals conducts tests for potency, identification, heavy metals and microbiological counts. Our product labels are periodically updated to reflect changing information and Health Canada requirements to further ensure efficacy and safety.

WHAT IS NPN ?

Due to the growing popularity of natural health products, Health Canada reformatted health product evaluation in 2004. Before 2004, health products were categorized as either a food or a drug. These categories did not provide customers with the information adequate to make an educated product choice. Currently, once Health Canada assesses a product and has decided it is safe, effective and of high quality, it issues a product license and an eight-digit Natural Product Number (NPN). As Health Canada is in the process of assessing products, Canadians still have access to the Natural Health Products they are currently using.

SCIENCE

Our leading clinical research and premium formula development places Westcoast Naturals as a frontrunner in the global market. As medical knowledge of natural products advances, Westcoast Naturals shapes the world's latest scientific discoveries and the ingredients in nature's medicine cabinet into innovative health opportunities. Westcoast Naturals studies scientific and medical journals and gathers evidence from herbal and naturopathic literature. We reach out to Ayurvedic, traditional and herbal remedies descended from a variety of healing and cultural practices. Our research team gathers information on the source of raw materials, dosage limits, efficacy, mode of action, safety, side effects, allergy response, contraindications, effects on long-term use and interactions with other medications.

We are fully licensed by Health Canada, and strive to create the best natural supplements in Canada. Have any questions? [Contact] our natural supplements company, learn more about [our company] or view our certifications, below.

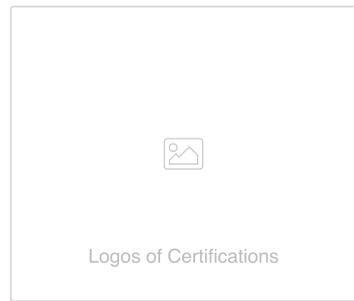

cGMP

Through the cGMP, we ensure our Quality Assurance and Quality Control are of the highest standards. Canadian GMP certification maximizes the safety and efficacy of the natural health products Westcoast Naturals manufactures and distributes. We are regularly inspected on premises, equipment, sanitation, raw material testing, packaging material testing and finished product testing.

NPN LICENSING

Due to the growing popularity of natural health products, Health Canada reformatted health product evaluation in 2004. Before 2004, health products were categorized as either a food or a drug. These categories did not provide customers with the information adequate to make an educated product choice. Currently, once Health Canada assesses a product and has decided it is safe, effective and of high quality, it issues a product license and an eight-digit Natural Product Number (NPN). As Health Canada is in the process of assessing products, Canadians still have access to the Natural Health Products they are currently using.

ISO 9001 LICENSED SITE CERTIFICATION

Westcoast Naturals follows a the guidelines organizational procedures required by the International Organization for Standardization. Certification is recognized worldwide and prescribes a framework that meets the needs and expectations of every customer. To provide the highest quality, we uphold the Eight Quality Management Principles of ISO 9001 Certification, including customer focus, leadership, continual improvement and mutually beneficial supplier relationships.

I got great support when I call in to ask about shipping options that weren't clear on the webpage. Shipping was fast too. This calcium supplement is unique because my mother has weak stomach and is not comfortable taking solid calcium pills nor acidic liquid calcium citrate. I'm surprise not many retail store carry this product.

Why Natural Supplements | About WestCoast Naturals

With over 14 years of industry experience, WestCoast Naturals has evolved to be a world-class manufacturer and distributor of superior health products, selling to retail food stores around the world. From raw ingredients to finished products, Westcoast Naturals is committed to providing products straight from nature's medicine cabinet. Choose the Westcoast Way and know you've chosen a product that is safe, licensed and certified.

Westcoast Naturals undergoes rigorous testing to ensure the purity of their raw ingredients. For example, our Instant C Effervescent Chewable Tablets is sweetened with Stevia, rather than artificial sweeteners.

Message From The President

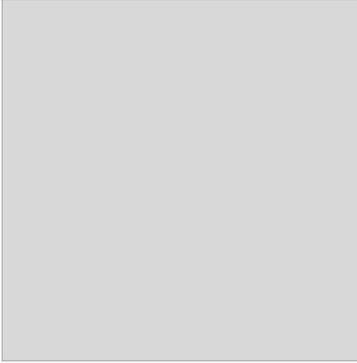

Eighteen years ago, my vision was to positively impact the health of those around me: my family, neighbours and community. We achieve quality as excellence by manufacturing powerful and effective health supplements from the finest raw ingredients. Our standards of production and Good Manufacturing Practices certification by Health Canada ensure the reliable quality of our procedures and products.

I would like to thank our customers for your loyalty and feedback. Today, we promote our global community to pursue inspired well-being with quality, potency and purity.

Sincerely,
Tom Chin
President

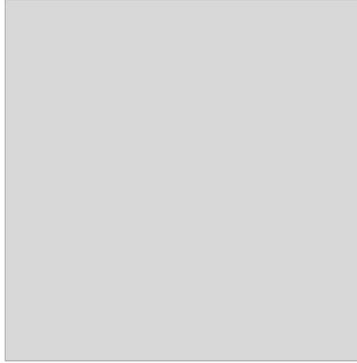

From Nature's Medicine Cabinet | WestCoast Naturals

What does "From Nature's Medicine Cabinet" mean?
This statement is two-fold. The science behind Westcoast Naturals' products is founded on a wealth of history and traditions from medicinal practices around the world. We reach out to Ayurvedic, traditional and herbal remedies descended from a variety of healing and cultural practices. Westcoast Naturals studies scientific and medical journals and gathers evidence from herbal and naturopathic literature.

MANUFACTURING

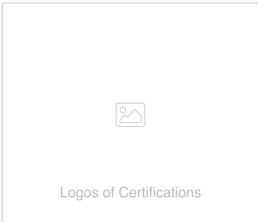

We submit all products through the Natural Product Number (NPN), a Health Canada licensing regulation to be required of all health products sold in Canada. The Quality Assurance and Quality Control teams are involved in every step of production. Westcoast Naturals thoroughly analyzes the potency of incoming raw materials and quality of packaging supplies. Video about Harold Morioka

WestCoast Naturals Sponsored Athlete - Harold Morioka

After wearing out his knees training six days a week and breaking 100 Canadian records throughout the years, Harold Morioka, a world championship runner, turned to Westcoast Naturals® Joint-Q for help. One open heart surgery and five knee operations later Harold Morioka is back on the track at age 69 to compete in the 2013 Brazil World Championships.

At age six, Morioka and his family relocated from the Japanese internment camp where he was born, to a farm in Surrey, British Columbia. Fast forward long days working on the farm and an abundance of fresh, healthy food to twenty years later. It wasn't until Morioka was coaching secondary track in his late twenties, when he realized he could outrun even his fastest students. At age 29, Morioka entered a 100 metre race at the Simon Fraser University track meet - and finished second.

Photo of Harold Morioka

Within a span of twenty-eight years, Harold Morioka has set over 100 individual Canadian records, twenty-two of which are still standing today. He is the only athlete in the world to break world records for all distances from 60m to 800m.

As can be expected, his body began to reflect his impressive athletic achievements. His knees began to show the wear and tear of hard, dedicated training. In 1997, Harold Morioka began taking Joint-Q. This Westcoast Naturals joint and bone supplement is a factor in the building of healthy cartilage. "Joint-Q keeps me going," explains Morioka.

When he's not racing, Harold, age 69, coaches The Greyhounds, a masters athletics club in BC. He is also currently training for the 2013 Brazil World Championships which take place in October.

Westcoast Naturals is proud to sponsor Harold Morioka, an inspirational Canadian athlete and motivational leader of the west coast community.

Photo of Harold Morioka

Harold Morioka Achievements

Named BC Athletics "Masters Athlete of the Year" 15 times. (Athletics only)
 Named Sport BC's "Masters Athlete of the Year" 3 times. (Includes all BC Sports)

Privacy Policy

This Privacy Policy is between the visitor ("you" or "your") and the websites operated by Westcoast Naturals, located at www.WestcoastNaturals.com ("Site" or "Sites"), and describes the collection, use, and disclosure of personal information. If you do not agree to the following practices – a pre-requisite requirement for use of this website – then please exit immediately.

Collection

Westcoast Naturals respects your personal privacy and will not knowingly collect personal information from children under the age of 18 years. However, there are areas within the Site where select information, such as your IP address, is necessary for the continued operation of this Site, and this is especially important for national and international locations. There may be areas within this Site where you voluntarily provide information, such as by completing an on-line survey or by requesting contact from Westcoast Naturals by way of phone, fax or email. Your consent for participation may be expressed or implied, and may take the form of marking a response such as clicking on an "I Agree" icon.

Use

All information collected about you while at the Site, will be held in confidence and only used in corporate assessments so as to better determine what types of products or services might be of interest to you, including improving the displays, features and content of the Sites.

Disclosure

Westcoast Naturals will take reasonable efforts to ensure that collected personal information is not sold, traded, or rented to other individuals or companies – even if it is only for the purposes of marketing. However, by court of law, court order, regulatory authority, or the result of other legal requirements, collected information may need to be transferred to another company or entity and this Privacy Policy shall be considered sufficient notice of such mandatory transfers. Changes may be periodically made to the Site and may be made at any time without notice.
